### *Christmas 2005*

#### *Seasons Greetings:*

*With the increased price of fossil fuel, we are seeing interest in areas other than the Upper Midwest. Seeing the state of Ohio become active again was especially meaningful as we were able to touch base with some friends from fifteen years ago.*

*To help increase the productivity level we built two new buildings this year. First, they got my permission to buy a new impressive piece of machinery for the welding area. Then they needed a new building to put it in!!! Welding now has a state of the art area. Third, we needed an additional storage building to stock pile all the boilers the welding team was putting out! We are all pretty happy with these new additions. There is even bright red "Electro Industries" lettering on the last building which is visible from I-94.*

*Dean, Jason and Debbie are swamped with all the customer calls and need help from the men of our family. Jon Smith (son-in-law) as our General Manager has everything to keep running, whereas John Seefeldt (son) keeps our computers, phones and all the electronic systems operating smoothly. Karin (John's wife) keeps busy with the two youngest grandchildren. Bill is still developing new products which suddenly have become quite a few. A new slicked down Electro-Mate® is the latest, but we also introduced an Air Handler this year and we are working on a few more things in the back room. Krista (daughter) can't keep up with entering and paying all the vouchers, whereas I gleefully make deposits in the bank.*

*Our other two children are well and doing great. Mark (son) is on to the dissertation stage for his Doctorate in meteorology at the University of Colorado in Boulder. John Amodea (son-in-law) is the editor of Paintball 2Xtremes and continues to publish one great issue after another. You should be able to locate it in Target or other major magazine stands. Brenda (daughter) continues with her substitute school teaching and her Wild Frontier youth ministry. She does much profound, cutting edge writing on the direction of today's youth ministry.*

*The big event of the year was taking all 15 of the family on an Alaskan cruise in June. After living a life of luxury on the ship, we got down to reality with all 15 of us camping in two RV's where we went to Denali and other areas of interest in Alaska, including halibut fishing. The picture is of us in Denali just before the first group departed for the mainland.*

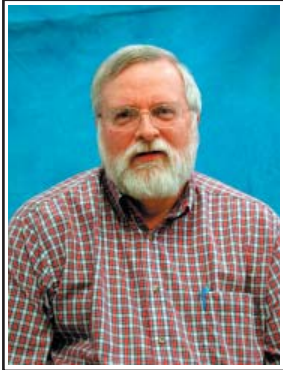

*We wish you and yours a Merry Christmas and a very blessed 2006.*

*Merrilyn Seefeldt*

## 2005 Loyalty Recognition Employees

---

Mike Olson - 15 years  
Programmer

Tom Haley - 10 years  
Product Development Manager

Sandy Hendrickson - 10 years  
Electronic Assembly Dept. Asst.
