### *Christmas 2006*

#### *Seasons Greetings:*

*Merry Christmas and Happy New Year! Electro Industries would like to take this opportunity to say "thank you" to each of our customers that support and promote our products throughout the year.*

*Throughout the year many of you get the opportunity to talk via phone or email to one of our sales staff. We thought you may appreciate putting a face and family with the name and voice and get to learn a little more about each of our Electro Sales families.*

#### **Jason Becker**

*I am 25 years old. I have been with Electro for 3 years. My current title is Sales & Product Support. My wife's name is Jenny, she is 22 years old. We have been married for 2 years. I have a son named Blake who is 2 years old and a daughter named Jolee who is 3 months old. Together they keep us very busy. In our spare time we enjoy camping, good movies, Vikings football, cooking, and spending time with friends and family. I enjoy working at Electro because they are a great company to work for and one that cares about their employees. Happy Holidays!*

*Jason, Jenny, Blake & Jolee*

*Debbie & Bill*

#### **Debbie Brager**

*My name is Debbie Brager. I have been with Electro for 27 years. My job title is City Desk. I have been married to Bill for 31 years we have three grown daughters. Two of our daughters live in the Minneapolis area, and one in Mayville, ND. When I am not at work I enjoy going to antique stores to shop, reading books, and spending time with my family.*

#### **Dean Havel**

*I have been with Electro for 5 years. My title is Sales, Product Support, & Product Training. The Havels had a busy, fun-filled year. We are part of the Bald Eagle Waterski Show, so we had a lot of fun skiing and camping all around Minnesota - Bemidji, Detroit Lakes, Glenwood and Brainerd were just a few of the places we went. Emma learned to ride her bike without training wheels so we logged a bunch of miles on our bicycles. Marlina just kicked back and enjoyed the ride in her bike trailer. Cindy changed jobs this year and is working for Target's IS Department in downtown Minneapolis. She likes the change but the commute could be tough as winter weather sets in. I had real good success mule deer hunting in Wyoming this fall. Our group harvested 11 deer for 11 hunters, I won the prize for the biggest deer.*

#### **Jon Smith**

*Over the past 20 years of employment at Electro I have enjoyed talking to many of you about our products. As General Manager my available time to talk with you has been diminished due to other responsibilities, but when the phones are busy we all pitch in and it is always a pleasure to get to talk with you. My wife Krista and I currently have four teenagers in our home, three of whom are driving. Now that's scary and expensive! Our oldest Brittany is in her first year of college at Northwestern in Roseville, MN. Tyler is a junior in high school and loves soccer. Ella is a sophomore and loves cross-country, basically anything that involves running. Isaac is in 8<sup>th</sup> grade and loves football. As a family we spent a week in Florida enjoying the sun and beach. Over the summer we enjoyed camping, fishing, and boating as much as our schedules allow. Krista and I in our spare time (spare time?) are in charge of running a CareGroup and Marriage ministry at our local church.*

**Bill Seefeldt**

Merrlyn and I founded Electro Industries in 1974. I am trying to retire but I am currently kept busy designing new products and handling the difficult questions on our current and older products. We have four children, the middle two are also featured in this greeting. Our eldest (Brenda) is a youth evangelist in the Washington D.C. area and the youngest (Mark) is almost finished with his PhD in meteorology at Colorado State in Boulder. My wife and I enjoy motorcycling all across this nation and are heading for the West Coast for two months this winter. We are also very involved in our local church.

**John Seefeldt**

Thank you from the bottom of our hearts for your continuing support as customers and friends. If it wasn't for your belief in Electro and our products, Electro would not be here today. I have been with Electro from the beginning, ever since Mom and Dad started the business. My tasks with Electro started in grade school and they have taken me to where I am at today, working with the internal systems, including IT, and helping our customers. My wife, Karin, enjoys taking care of our two kids. Nathan is nine years old and in third grade. He enjoys fishing and shooting guns with more excitement towards his chess club from school. Megan is my sweetheart and all princess. She is six and in first grade. Crafting and anything puppy, whether real or stuffed, makes her happy. The most fun we have is when we go camping. Last summer we took our kids to the great state parks of Minnesota - Gooseberry Falls, Itasca State Park, and McCarthy State Park. Church involvement and working for God is being taught to my kids. Everything from worship leading and children's ministries by Karin; to sound technician, youth leader, treasurer, and short-term missionary to Germany last summer by me. I just hope that someday my kids will grow up to be half as good as their grandparents, Bill and Merrlyn Seefeldt.

John, Karin, Nathan & Megan

*We wish you and yours a Merry Christmas and a very blessed 2007!*

**2006 Loyalty Recognition Employees**
