

ELECTRO INDUSTRIES - FIELD SERVICE BULLETIN

Bulletin Number 1109 Date 07-16-07

Product Name Make-Up Air, Various WarmFlo Models, Temp Setting Changes

Affected Product Model Numbers: EM-WX0*, EM-WC0*, EM-WH**, EM-WM**

Serial # _____ through _____

ARL # _____ through _____

Production Date 7-12-07 through Present

FIELD INFORMATION

Issue

Field requests indicate the "C" temperature chip should allow a colder temperature setting. 30° F is not low enough.

Solution

Temp range or window "C" and "E" are changed to a 5° setting as follows:

Switch Position	C		E	
	Previous	New	Previous	New
0	30	20	68	60
1	36	25	72	65
2	42	30	76	70
3	48	35	80	75
4	54	40	84	80
5	60	45	88	85
6	66	50	92	90
7	72	55	96	95

Additional Information

Instruction sheet addendum HD308 provides tables for all available temperature range code chips. This HD308 has been revised (7-16-07) to include the new values for "C" and "E".

Approval  Date 7-17-07
