

ELECTRO INDUSTRIES - FIELD SERVICE BULLETIN

Bulletin Number 1111 Date February 25, 2008

Product Name Electro-Boiler, Multi-Application, EB-C-STG5 and Electro Zone Controller EB-Z*S or EB-Z*A Series

Affected Product Model Numbers:

Serial # All through _____

ARL # N/A through _____

Production Date 3-5-08 through _____

FIELD INFORMATION

Background

There has been some conflict and confusion between the drawings and installation manual for multi-boiler control and zone controllers. These conflicts also resulted in a software chip upgrade for all zone controllers and EB-S boilers.

However, this only relates to mixture of small and large zones using SIZE dial switch position G or H.

Action

Where these combinations exist, the following upgrades should be noted and studied.

- Multi-boiler transfer module EB-C-STG5
 - Installation manual, BI505, 02/25/2008
 - Drawing BH504, 02/22/2008
- Zone controller EB-Z*S-1, software chip version 3.22
 - Installation manual, BI005, 02/25/2008
 - Drawing BH015, 02/21/2008
- Zone controller EB-Z*A-1, software chip version 3.33
 - Installation manual, BI008, 02/25/2008
 - Drawing BH020, 02/21/2008
- Zone controller EB-Z2P, software chip version 5.01
 - Installation manual, BI007, 02/25/2008
 - Drawing BH017, 03/06/2007
- Electro-Boiler EB-S-**, software chip version 5.35
 - This relates to multi-boiler Load Control (LMC) only

Approval  Date 3/26/2008
